

Animal Samaritans

SPCA, inc.

Thank you for helping us improve the lives of animals and people in the Coachella Valley. Spaying and neutering is a humane way to control animal overpopulation, significantly reduces the euthanasia of unwanted cats and dogs, and helps minimize public health problems. Studies show that non-altered animals are susceptible to more diseases, and consequently spayed and neutered cats and dogs lead longer lives.

- Dogs must arrive on a leash or in a pet carrier; cats must be brought to the veterinary clinic in a pet carrier. Animal Samaritans' state-of-the-art veterinary clinic is located at the Animal Campus in Thousand Palms: 72-120 Pet Land Place, Thousand Palms, CA 92276.
- On the night before your appointment, your pet must have no food or water after 11PM.
- Cash or Credit Card (MC/VISA/Discover) only - no checks.

Name of Owner (last, first, middle) _____

Address: _____ City: _____ St: _____ Zip: _____

Phone: (____) _____ - _____ Email: _____

1. Pet's Name: _____ (circle) Cat / Dog: _____ (circle) Male/Female: _____

Surgeries are performed Monday through Saturday. Please tell us which day you would like to schedule your pet(s) appointment.

1st choice (what day): _____ 2nd choice: _____ 3rd choice: _____

We will do our best to accommodate your requests.

Are your pets' vaccinations up to date? (circle) Yes / No / don't know

Our veterinary clinic is open for vaccinations Monday - Saturday, 9:00am to 4:30pm on a walk in basis—no appointment is necessary for pet vaccinations or microchipping.

The best (and most affordable) time to have your pet's teeth cleaned is while he or she is having their spay/neuter procedure. Are you interested in dental services for your pet? Yes/No

Pet Dental Exams are by appointment only. Once a veterinarian has examined your pet's teeth and gums, we can schedule his or her dental cleaning at the same time as their spay/neuter appointment.

Tell us anything else we should know about your pet::
